# YELLOW FEVER IS NOT ELIMINATED

#### The New Orleans Authorities Hope Against Hope

THEY WOULD LIKE PRESIDENT TO VISIT THERE.

But There Are New Cases At Pensacola and Jackson and At New York.

NEW ORLEANS, Sept. 25.-Yellow fever report to 6 p. m. New cases ..... 37 

Discharged 2126
Reason for a continued hopefulness
that yellow fever still will be practically
a memory on the date scheduled for the visit of President Roosevelt, was found by the authorities in today's report, which was exceedingly encouraging in the matter of new cases, as the low report for Sunday also indicated that the
fever now prevailing is of a comparatively mild type.

The great majority of the new cases

being reported lately come from the Seventh and Eighth wards, which devel-oped into the real battleground of the fever campaign as soon as the situation RUSSIAN STATESMAN HAD TALKS in the original infected district began to get under control.

News from the country indicated two new points of infection. Terre Bonne parish (two days) reported forty-seven new cases, four deaths; Patterson, twenty six cases.

PENSACOLA, Fla., Sept. 25.—Twenty five new cases of yellow fever were reported by physicians to the state health office for the twenty-four hours ending at 6 o'clock tonight. This makes forty-four cases for Sunday and Monday. One death was reported today. The situation tonight is rather discouraging as the cases are scattered all over the city and all hope of checking the disease before the appearance of frost has been practically abundoned.

Four cases of yellow fever have developed on board the German steamer Bremen, which has just finished loading Among those who saw Witte at his-for Bremen and the patients tonight hotel was Ernest Mendelssohn-Bartholdy, were brought ashore and placed in a whose house has been Russia's bankers

NEW YORK, Sept. 25.—Another case of yellow fever was reported today at the quarantine hospital on Swinburne island. Health Officer Doty gaveout the following statement this evening:

Total Membris and 20 conditions:

Total Membris and 120 conditions:

Total Membris and 20 conditions: Jose Macuira, aged 20, a coal passer of the steamer Hayana, from Colon, was removed to the hospital on Sunday morning. He was sick on the passage from Colon about two days before arrival. The ship's doctor had him under treatment and kept him isolated, and sick and Dr. Doty considers his condition as serious. The Havana arrived in port Sunday, September 24 from Colon. She was five days, 10 hours on the passage. No communication was permitted on board with the sick man."

JACKSON, Miss., Sept. 25.—The yel-ow fever infection at Hamburg is sprending rapidly, nine new cases, four suspicious cases and one death being reported today. Roxio reports one new case, one death.

## HEREDITARY COUNT

PERIAN, Sept. 25.—The hereditary Count Francis von Erbach-Erbach, the 22 year old son of the second branch of the ancient house of Erbach in Hesse. has been set aside from the succession, according to the Tageblatt, for having married the daughter of a washerwoman of Erbach. The marriage, ir is added, took place in London some weeks ago. Count Francis, having affirmed his intention to remain true to his wife, a council of all the counts of Erbach was called, the names of eight of whom are in the Almanae de Gotha old enough to participate in the liberations. The council decided that under the laws of the house. Count Francis had forfeited his right to succeed his father and elected to succeed him Count Edward, who is 19 years of age, and second son of Count Arthur, the eldest living brother of the chief of this branch of the family.

SACRAMENTO, Sept. 25.-Another ensational chapter was added to those already unfolded in the trial of E. J. Emmons, when Arthur Lee, a colored attendant employed during the last session in the senate cloak room, confessed on the stand today that he had received three of the packages of marked bills from three of the men now under indict-ment and had kept them in his posses-sion for several days at least. The tes-timony did not show where the bills had finally gone and the question of their disposal is the all-important one to those closely interested in the trial. The proscention concluded its side of the case

It was a colored attendant of the senate. Arthur Lee by name, that the marked bills prepared in San Francisco for delivery to the four state senators now accused were entrusted. Such was the main testimony. Lee, the negro in question, made a full confession of the part he took in the affair and the last surprise of the prosecution created a stir that was almost equal to the ap-pearance of Harry Bunkers as a witness

for the state.

Lee, who has been in custody as a witness since the early part of this month, affirmed that three packages of the marked bills were in his possession for at least a day or two and that he had an opportunity to compare the numbers and descriptions with the published accounts in a San Francisco paper. He told of one ineffectual attempt which he says was made to dis pose- of them but the final disposition made of the incriminating currency was not disclosed either by prosecution or

And when court adjourned there was but one question in every mouth. What had become of the marked bills? Bunkers told of the efforts to get them to-gether. Lee follows this with a declaration to the effect that he was for a time the custodian of three out of the four packages and once while on the stand he testified that he had taken them to William H. Hanlon. This, however, was stricken out as unresponsive and the examining attorneys appeared careful not to ask what was finally done

with them. certained to be those enumerated in the paper, and in addition, a roll of currency of smaller denominations amounting to \$115. There was no attempt at explanation of the presence of this

money in the envelope, Next, according to Lee, Emmons had given him Wright's envelope, which he testified contained seven \$50 bills and \$420 over and above this, in twenty, ten and five dollar greenbacks. He had been instructed, however, to dispose of the \$50 bills only, from which it might be inferred that no suspicion attached

to the other bills.

Lee's testimony indicated that French disposed of his roll of bills, as he had gold, which was exchanged for greenbacks when the effort was made to col-

NEW YORK, Sept. 25 -- Irene Grossnan, a girl of 16 years, was found clubbed into insensibility in the hallway of her home early today. The attack was the culmination of a series of nightly entries in the Grossman private entrance which were intended to enforce by "Black Hand" methods payments of money for immunity from attack. Beginning Friday night a negro visited the house nightly appearing only to Miss Grossman and escaping when frightened by her screams. Despite the lookout set for him by the family, he succeeded today in reaching Miss Grossman before she had a chance to give: a warning.

The girl's brother told the police that his sister had started for an early morn-

## NORWAY-SWEDEN PROTOCOL=TERN

HISTORIC DOCUMENT SIGNED AT KARLSTAD SATURDAY.

Subject to Ratification It Provides the Basis for Dissolution of Two

Countries.

STOCKHOLM, Sept. 23.—The Assoriated Press succeeded in securing the text of the protocol signed at Kalstad Saturday by the Norwegian-Swedish delegates appointed to arrange the terms for the dissolution of the union of Norway and tweden, subject to the ratifi-

cation of the riksdag and storthing.

The historic document, which will become a treaty when ratified by the two parliaments, consists of five main artiles and two sub-clauses. The first article deals with arbitrations; the second with the neutral zone and the demolition of the fertifications; the third with reinder pastures, etc.; the fourth with inter-traffic, and the fifth with common proplonged for a similar resider.

The agreement provides for the com-pulsory arbitration before The Hague court of all disputes, except matters of vital interest, for the period of a decade, with extensions for other periods of ten years unless two years previous notice given of and intention to abrogate

with exception of the old portions of he fortifications of Frederickston, yldenloeve and Overlagget which may remain, but which are not to be used as ekston to the same extent as prior to o extensions of the Kongsvinger group of fortifications will be permitted, nor of the new forts creeted within ten kil meters of the eld fortress of Kongsvin-

Concerning the moderna rrangements of the last three and concerning the action to be taken in connection with the other fortificaions, more explicit, norcements are related in a separate treaty of equal force with us.

D .- The measures mentioned in clause "c" must be completed within eight menths of this treaty becoming effective. E.—Provides that the above measures shall be carried out under the supervision of a commission composed of three officers of foreign nationality, neither Swedish nor Norwegian, each country choosing one and the two selecting the third, or in case of disagreement, he is to be chosen by the president of Switzerland. More explicit rules concerning the control are to be contained in the aforementioned separate treaty.

.-Frederickston may remain the headquarters of the staff of the district, and a place of garrison and site of the ion-commissioned officers academy the same extent as before the erection of the new fortifications. The Kongsvingers group of fortifications may not be extended as regards the erection of armaments of the garrison, which latter hitherto has not exceeded 300 men, not counting conscrips holding their yearly

In consequence of the above agreements, new fortifications may not be erseted within ten kilometers of the old fortress of Kongsvingers.

The succeeding clauses provide that in case of disagreements as to the meaning of this clause which diplomacy may be unable to solve, they shall be submitted to an arbitration tribunal of three members chosen in accordance with The convention. The last clause reads:

"This agreement becomes effective immediately. It cannot be broken by only one party to the agreement." Article 3 refers to reindeer pastures, ete. as follows: A .- For humanitarian reasons, both

#### THE AUSTRIAN CRISIS.

With the conclusion of peace in the Far East, and the dissipation of the war-cloud in the North, comes a revival of trouble in the Near East. Greece and Roumania have severed diplomatic relations, and would be on the verge of i war it the big powers would let the small fry fight. Austria and Hungary have come, apparently, to the parting of the ways. Nothing but the personal prestige of Franz Joseph, and the certainty that he can live only a few years, have kept them together until now, and these considerations, even against the present crisis, may hold them together a few years more. But, soon or late, the break must come. The Austrian empire is a rope of saml, held together by external conditions rather than by internal cohesiveness. en Cost of Building in This

The plumbing ordinance after being nourished by the Board of Health, the master plumbers and the ordinance cont-mittee o the Board of Trustees for many months last night fell upon stony ground and as a result is considerably withered. The meeting of the trustees informally the ordinance before it is regularly

passed at first reading at the meeting next Monday, proved to be the battle ground between high prices and sanitary efficiency on the one side and low prices and economy on the other as represented by President Long of the Health Board and Plumbing Inspector Ellithorpe on on the other. Trustees Sutherland, Collins and the others sat on the fence and cheered, and then made the ordinance look as though a lot of holes had been

shot through it.
Mayor Lyon not appearing at 8 o'clock Trustee Myers took the chair, and City Attorney Ewing started in to read was fairly casy sailing except where the attorney could not pronounce the words, and he finally telephoned for Dr. Long to help him out. The first part delines the powers and duties of the ized and through what officials it shall guard the health of the city.

In the course of the reading, it developed that there are a number of blocks of the city in which there should be A Placer county orchardist has been sewers, but it is useless to put them in as there is no water in the blocks. It was decided that the sanitary in spector must report both to the plumb-ing inspector, who is his chief, and to the Board of Health.

The present strict rule of the city requiring a permit to be obtained in case of any alternation in a building, no matter how small, was referred to, and the city attorney stated that he would prepare an amended ordinance, requiring the issue of building permits only in case of in amount.

The trouble came with the reading of the provisions relating to piping within buildings. Trustee Anderson girded his loins for war, saying that he was prepared to prove his statements that be plumbing in this city costs more than in any other city of its size in the state, and he believed this to be due to he plumbing regulations.

"Ud like to know who prepared this ordinance," remarked Anderson,

"The city attorney, myself, and a committee of the master plumbers met list, said Phunbing Inspector Ellithorpe, "and then we met with the or-dinance committee of the trustees." The charge was made against the old egulations that they were prepared in

he interest of the master plumbers, said Anderson. "This ordinance is stronger than the old one."
"I will say," interposed Dr. Long.

The longest tussle was over the question of permitting the use of vitrified pipe instead of iron for the sewer under a single story frame house, where it was chimed the light weight would permit of the cheaper material being used. Dr. Long, however, protested that the sewer gas would escape under the house from the stone piping and that much ill-health would result from its use. The board then let the provision for iron pipe stand. Adjournment took place at 11:45 o'clock.

The force of the collision was so great that the engine of the limited plowed ten feet into the private car and the latter was forced half way through the day coach ahead. There were less than half dozen passengers in the local train and they were in the forward coaches and were not injured. The engineer and firemen of the limited were not hurt but a dozen persons on this train were in-jured by being thrown against seats

and the sides of the cars. Hundreds of railroad men from the vards came quickly to the reseue. HAVANA, Sept. 25.—Complete returns from the entire island, which have been delayed owing to the bad condition of the telegraph service, show that in the election last Saturday for members of the election boards the supporters of the government were victorious in every province, not having lost one important place. The victory was so complete that t is now generally admitted to mean the re-election in December of President Palma and the election to the vice presidency of Mendoz Capote, the leader of

the Moderate party. Colonel Ferrara, secretary to General Gomez, the Liberal candidate for the presidency, was arrested today, charged with seditious and revolutionary utterances. This makes the sixth charge pending against him, the others includcharge ing participation in the burning of the city hall at Vueltas. Colonel Ferrera is an Italian but he is a veteran of the last Cuban war and one of the most prominent lawyers in Havana.

Today's mail brought to the Liberals the first report from their adherents in Cienfuegos of the riots there Friday last which resulted in the killing of Congressman Enrique Villuendas and Captain Villiance. This differs very little from former accounts, except that it lays on the Moderates the blame for starting

the disturbance. Additional reports from Cienfuegos received by the government say that the chief leaders in the alleged dynamite plot were two Italian anarchists named Mumberto Bruni Bove and Julio Grau, who have been making seditions speeches there and elsewhere for some time past.

#### **OLD SORES** ROOTED IN THE BLOOD

old Sores are the result of a deeply colluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surroundng parts become diseased and the sore its deeper into the tissues and flesh and l'ecomes a permanent trouble.

Some years are while at work, I fell over a truck and severely injured both otmy shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. I tseffects were prompt and gratifying. It took cally a short while for the medicine to centrely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again, and some twelve years have empsed since what I have described occurred. Having been so signally benefited by its use I can heartily recompend it as the one great blood purifier. Wheeling, W. Va. J. W. FUNDIS. Care Schmulback Brewing Co.

Salves, powders, plasters, etc., do no good, and the sufferer gets disgusted and often despairs of curing an old sore. The trouble is in the blood and until the poisonous matter that is keeping up the ulcer is driven out the place cannot heal. S. S. S. reaches these old sores through the blood by removing every particle of poison or impurity from the circulation and building up the system. It makes the blood healthy so that

s it circulates to the diseased parts the tissues are strengthened and the PURELY VEGETABLE, sore can heal

naturally and permanently. If you have an old sore or ulcer do not waste time with salves, rowders, plasters, etc., but write for our ask for any medical advice you wish. We make no charge for either

It is too much of an easiness to take game from San Francisco. The fans know it. So do the bell players. Helf the cranks who go out to Recreation park Sunday afternoons to exercise their lungs, took a little piece of the needful with them Sunday to bet on Fresno. No takers could they find. One man did place a bet of 2 to 1 and another got 3 to 1, but nearly everybody had long-end money and betting could not be done. The final score was 8 to 3 in favor of Fresno, all of which makes a noise like a good guess from the long-enders. their lungs, took a little piece of the from the long-enders.

But it looked mighty dubious for a while. In the second inning the Fris-cans fell onto O'Brien for a hit or two. which aided by a walk filled the bases. It looked like curtains for O'Brien, But fourth man up was too anxious and retired after three swings. The fifth man laid down a bunt toward third, whence the base runner was sprinting like mad toward the home plate. But Moore had the leather in an instant and before the runner reached the plate, had shot it into "Red-head" Kuin's hands and the second man was Three wild swings retired the next man and the situation was saved. In the third inning when men were out, Schimpff made a pretty scoop of a hot grounder and then threw the ball out Cartwright's reach. The runner

once, the next three men up liming on this that scored three runs.

Meantime big "Dice" Peterson was passing up a variety of shoots and curves that the Fresnans could not fathom, and it was inning six and 3 to 0 in favor of the visitors. Then the fireworks began. Moore got to first on an error. Adams laid down a bunt of the country of the standard of the country of the country of the standard of the country of the coun and beat it out, and Clynes got his base on an attempt to sacrifice. Moore being thrown out at third. Cartwright brought in Adams, and he and Clynes were in turn scored by McKune, who placed a pretty double in left.

It was in the ninth inning that Fresno won the game. A series of hits, coupled with a bunch of errors, Erle being the chief offender, started the fireworks. All of Peterson's eleverness was gone. The locals landed on him almost at will. When two men were out. Walter Kuhn got one of the longest hits of the season, a clean three-bagger against the left field fence. Britt scored from second, but Kuhn in his hurry overstepped the second sack about six inches and was called out, retiring the side.

PRESMO HAS GOOD LEAD FOR Burleigh. LEAGUE PENNANT .

It looks pretty good for the cham-pionship, doesn't it. The Fresno boys are playing inside baseball now as never before. There were more attempts Sunday to pull off the hit-and-run play than in any game during the year.
Schimpff's error started the Priscans

Schimpff's error started the start of run-getting in the third. But the Dutchman is playing good ball and covering a lot of ground. Schimpff tries for everything, and that is one reason he makes errors. He takes why he makes errors. He takes chances that many men wouldn't take, for lear of hurting their average.

There is no faster or more consistent player in the State league than "Mose" Moore. He covers the third sack like a veteran, always knows what to do

Cartwright is keeping up his batting clip, and is always on hand with a timely wallop. His form with the willow now is as good as it was four years ago when he played in the old

### TRIAL OF RIGGINS

MURDERER OF DEANE WILL HAVE THREE ATTORNEYS.

Ernest Eilert Estate Ordered Distributed to the Heirs-Superior Court

This morning commences the Emmet Riggins murder trial. Judge Church will sit on the bench.

All of today will probably be con-

sumed in getting a jury and it is possible that the twelve men will not be selected before tomorrow night, for it is certain that neither side is going to allow jurymen to go in who are not thoroughly satisfactory.

District Attorney Jones will appear for the state. The relatives of Robert

E. Deane, the murdered man, have re-tained W. D. Crichton to represent them in the prosecution. M. K. Harris, S. J. Hinds and Frank H. Short will defend

Hickok, should not se revoked in favor of N. A. Hickok, hus band of Carrie Hickok, was put over for hearing to October 16th. Church has filed an answer to the citation in which he declares that he gave the property in the estate to Mrs. Hickok during her lifetime, that Hickok has taken pos-session of the property and sold parts

of it without regard to what is best.

On the petition of J. H. House, J. F. wing was yesterday made guardian ad litem for the Stovesand defendants in the suit brought by House against him. Letters of administration were given the public administrator on the estate of Alto Rohde.

The estate of J. R. Wolfe was apened up yesterday by Judge Church for the hearing of the objections of Rosa Hanen. F. D. Edwards, attorney for Rosa Hansen, showed that he did not hav proper notice of the coming up of the settlement of the final account.

Minnie Eisele, administrator of the estate of Fritz Eisele, has reported finally of her administration.

The will of Lizzie Fay was entered to probate vesterday by Judge Austin and letters issued to W. F. Hanke. The will is very short and leaves all proper-

OWENS WITH PISTOL ON McCARTEA SAID "FIL KILL YOU."

But McCarton Knocked Gun Up and Owens Down-Trouble Becruse Wife Left Owens.

With murder in his heart Bertram Owens threw a pistol on George S. Mc-Cartea and would have pulled the trigger had not McCartea knocked the deadly weapon from Owens' hand. Owens had just said "I'll kill you," and the

muzzle of the gun was within arms' reach of McCartea's face when McCartea saved himself with a blow upward team at getting on bases, and is fast in getting from sack to sack.

Cartwright is beginning up to the country of the laid Owens low with a terrible swing on the point of the abis. tempted to kill McCartea because Me-Cartea gave shelter in his home to Ow-ens' wife, formerly Kate Brickley, the sister of Mrs. McCartea, Mrs. having sought protection from the bru-

tal man she had married.

The story of the affair begins some weeks ago. At that time Kate Brick-ley was living with the McCarteas. She married Owens. Four days later she returned and asked protection from her orutal husband and McCartea told her that her husband should not molest her. Owens attempted to see his wife several times. but each time he found the doors locked. Mrs. McCartea told him that if he tried to get into the house she would telephone for her husband and that Owens would get hurt as a result, an argument Owens seemed to appreciate. Suit for the annulment of the marriage was commenced by the woman Owens had taken to the altar. Owens laid the evident displeasure of his wife, to the interference of McCarthat any man would not have done un-

der the circumstances. Yesterday afternoon Owens began beasting around that he would wipe out the McCartea family. He made such a boast to Adams, a blacksmith wear the Empire stables. Adams immediately telephoned to McCartea, who is also a blacksmith, with a shop at 2326 Fresno street. McCartea got officers started his house when suddenly

Owens drove up to the shop in a bug-gy which he had rented at the Empire stables. He asked for McCartea, who stepped to the door. Owens was dressed for war. He had a double-barrelled shotgun in the buggy and a heavy revolver strupped to his belt.

McCartea told Owens to do nothing: rash, but Owens pulled his revolver from nis holster and said "I'll shoot you. He walked into the shop door keeping

the revolver on McCartea. He talked far recovered from his liness that he rapidly. "You took my wife from me. I'll kill you." When McCartea stepped Wednesday via Vancouver. toward him Owens backed off. Finally Owens said: "Not for the sake of your wife, who

is a queen, not for the sake of your daughters, will I spare you. I'll kill you. As he said the last words Owens took a step forward and looked down the barrel of the long

Our Millinery Opening A Trade Triumph

> The Style Show Continues Today

The largest crowds that ever attended a millinery opening in Fresno were in this store yesterday.

The millinery display was unqualifiedly approved by the best dressed and most critical women of Fresno. Our store service was put to a severe test, but it met

the occasion splendidly; each guest was personally welcomed and entertained with a whole souled hospitality that made looking a pleasure.

The beauty of the millinery display was equalled by the price attractiveness; we sold more hats yesterday than ever before on an opening occasion.

So many were afraid that the hat that appealed to them might be sold that they secured it at once; there are no two hats here just alike, as we have told you.

We continue the display today and tomorrow; no need to tell you how welcome you will be. Come, let us entertain you.
